

## SPARKULAR MOBILE

SPARKULAR® MOBILE is a battery powered truly wireless SPARKULAR developed by SHOWVEN. It is super compact and light weight, only 6kg with built-in battery. Benefit from our intelligent battery management system and higher efficiency energy conversion, SPARKULAR MOBILE with extra long standby time, >3h when heating on and >144 when heating off. With our latest heating technology the new SPARKULAR MOBILE requires much lower (30% lower) temperature, thus ensure much safer for indoor use. It is an ideal choice for small gatherings, ceremonies or even stadium applications when power supply is complicated.

### Features

- \ Truly wireless, with built-in battery and support both 2.4GHz and 433MHz wireless remote
- \ Removable battery pack, quick replacement
- \ Extra long standby time, heating on status >3h, heating off status >144h
- \ Heating ON/OFF status switch with remote controller
- \ 30% lower core temperature, safer for use
- \ 2min fast initial heat up
- \ Compact and light-weighted
- \ Less noisy
- \ Durable aluminum top plate and metallic output tube
- \ 2-4m adjustable height, adjustable with remote controller and consumable types

### Specifications

#### Dimension

168 x 180 x 257mm

#### Net Weight

6kg

#### Voltage

AC100-240V, 50/60Hz

#### Housing Material

FR-ABS + Aluminium

#### Motor Status Monitoring

Yes

#### Heating Up time

Appr. 2min

#### Charging Time

Max. 5h

#### Charging Power

100W

**Standby Time**

Standby with heating ON > 3h  
Standby with heating OFF > 144h

**Hopper Capacity**

100g

**Interface**

3-pin XLR, POWER IN/OUT, DC 5V

**Control**

DMX  
2.4GHz and 433MHz wireless remote

**Effect Height**

HC8200 LARGE: 3-4m  
HC8200 MEDIUM: 2-3m

**Effect**
