

SPARKULAR waverFALL

SPARKULAR®WAVERFALL is 180° waving spark fall effect originally developed by SHOWVEN. It can firing in any single direction between -90° to 90° or in waving sequences. With 72 preset firing sequences and various editable sparks effect brings infinite creativity to your stage. It can also combined with SPARKULAR WAVER to generate a spark effect in any direction of 360 degrees.

Features

- \ 180° waving spark fall effect
- \ 3-7m adjustable waving fall effects
- \ Firing angle can be waving or any fixed direction between -90° to 90°
- \ Waterproof design can be used in rain
- \ Fast and precise nozzle waving based on exclusive dual PID algorithm control system
- \ 72 preset firing sequences, easy operation and programing
- \ Stainless steel housing, durable and reliable
- \ Motor status real time monitoring, safer to use and easier problem diagnosis
- \ 3.2" LCD color screen, user friendly

Specifications

Dimension

300 x 305 x 285mm

Net Weight

17kg

Voltage

AC200-240V / AC100-120V, 50/60Hz

Work Power

500W

Housing Material

304 stainless steel

Motor Status Monitoring

Yes

Color Screen

Yes, 3.2"

Firing Direction

Waving between -90° to 90°

Fixed firing angle between -90° to 90°

Effect Angle Adjustable

YES, -90° to 90°

Preset Firing Sequences

YES, 72 preset firing sequences

Hopper Capacity

400g

HC8200 Consumption Rate

25g/min

Interface

3-pin and 5-pin XLR

Control

DMX, 6 channels

Effect Height

LARGE: 3-4m

LARGE I: 4-5m

LARGE II: 5-7m

Effect
