

## uFetti Blower 16M

uFetti Blower 16M is a more compact yet still powerful DMX controllable automatic confetti blower, equipped with customized low noisy high speed blower and a 45L extra large automatic confetti dosing hopper. What's more we adopt durable patented brush feeding structure instead of foam feeding structure ensure longer service life. Operator can adjust the confetti output density by DMX. It can be widely used in indoor, outdoor and various special applications.

### Features

- ∨ Compact yet powerful confetti blower, upto 15m output distance
- ∨ 45L automatic confetti dosing hopper, 10kg paper confetti loading capacity
- ∨ Adjustable confetti output density, 7-20min continuous output
- ∨ Durable patented brush feeding structure
- ∨ Flightcase design, easy for transport
- ∨ Both DMX and Manual controllable
- ∨ Wider output nozzle, wider confetti spread
- ∨ Adjustable output angles

### Specifications

#### Dimension

926 x 540 x 990mm

#### Net Weight

106kg

#### Voltage

AC200-240V / AC100-120V, 50/60Hz

#### Work Power

2400W

#### Hopper Capacity

45L (max. 10kg paper confetti, 20kg metallic)

#### Interface

3-pin and 5-pin XLR

#### Control

DMX, Manual

#### Output

Up to 15m

#### Output Angle Adjustable

Yes

#### Output Density Adjustable

Yes

#### LED Warning Light

Yes
