Spark Machine SPARKULAR TRIPLE

By Showven

Selling price : 3 712,00 € ex.VAT

The **Sparkular Triple** is a triple outlet spark machine with a height of 2 to 5 meters, adjustable according to your needs, with an effect time of 10 to 12 minutes depending on the powder consumable used. It is equipped with a vertical nozzle and two nozzles at an angle of 25°, each nozzle can be controlled individually.

The efficiency of the motor ensures excellent flare speed and powerful bursts. Spark effects are stable and uniform, and RDMX technology will help the operator monitor the operating status of each machine. Combined with high quality waterproof connectors, the Sparkular Triple is a stable and reliable professional equipment for the stage.

An optional flight case is available for transport. This model is also sold in sets of 2, 4 and 6 machines with DMX cable and flight case included.

This is a professional quality product suitable for use mainly on the ground outdoors.

Foam Machine UE ST-350 JET-FOAM

By Universal Effects

Selling price : 5 664,00 € ex.VAT

The **UE ST-350 Jet-Foam** is a foam projection machine up to 6 meters away. Available in two versions with or without pump and supply hose. Control your machine in DMX-512 or in Standard version by the Power-Con supply.

Made of ALUMINUM and stainless steel screws, this foam projection machine is designed to last over time. Its unique concept allows its user to keep the same thruster, called **BASE**, and to change effects thanks to interchangeable **HEADS**.

This is a professional quality product suitable for indoor or outdoor use, both floor standing and hanging, ideal for 100-500 people capacity.

Foam Machine UNITED COMPACT FOAM

By United FX

Selling price : 2 124,00 € ex.VAT

The **United Compact Foam** is a compact machine for the production of falling foam up to 50m³ per minute. This machine is connected directly to the water system with an automatic mixer by a venturi suction system. It is delivered with its support, its 5 liters canister, 2 hoses of 10 and 15 meters and a quick connector for connection to the water network. Professional connection and resettable fuse.

Made of ALUMINIUM and STAINLESS STEEL screws and bolts, this compact falling foam machine is designed to last over time. Control your machine with DMX-512 or Standard version with PowerCon.

This is a professional quality product suitable for indoor or outdoor use, ground or suspended, ideal for a capacity of 100 to 300 people.

Type of refill	Electric confetti cannons
Projection of the effect	4 to 12 m with 40 cm and 80 cm cannons ; 12 to 20 m with 40 cm and 80 cm cannons

Confetti Cannon UNITEP SHOOT SINGLE

By *United FX*

Selling price : 342,00 € ex.VAT

The **United Shoot Single** is a single tube firing system for electric confetti or streamer guns. The firing is triggered by a 220V/50Hz electrical impulse and the gun can be rotated 180°. You can control your machine with DMX-512 or with the standard version with PowerCon.

Made of ALUMINIUM and stainless steel screws, this firing system is designed to last over time. It is a professional quality product suitable for indoor or outdoor use, on the ground or suspended.

By multiplying the number of machines positioned in different areas of your venue, you will achieve a great confetti or streamer effect. The United Shoot Single can be used for animation, concerts, theaters and TV sets.

Machine to Designe Visuel UE K-500 AIRFLAME

By Universal Effects

Selling price : 2 910,00 € ex.VAT

The **UE K-500 AirFlame** is a low decibel visual design machine. Choose your design according to your needs: White or black silk flame 4-6 meters high or Windsock 6-12 meters high.

Lighting is provided by an orange dichroic filter for the Light version or by LED. This is a professional grade product suitable for indoor or outdoor use, both floor standing and hanging.

Made of ALUMINUM and stainless steel screws, this visually designed machine is designed to last over time. Its unique concept allows its user to keep the same thruster, called **BASE**, and to change effects thanks to interchangeable **HEADS**.

Control your machine in DMX-512 or in Standard version by the Power-Con supply.

By Universal Effects

Selling price : 1 704,00 € ex.VAT

The **UE Mini Stage Co2** is a Co2 jet machine from 7 to 8 meters away depending on the humidity in the air. Its unique concept of interchangeable heads allows you to choose from 8 different Co2 jet effects.

The Co2 effect with the **CROSS** interchangeable head is a horizontal multidirectional jet thanks to its four outlet guns.

Made of **ALUMINUM** and stainless steel screws, this Co2 machine is designed to last over time. It is a professional quality product intended for use with a Co2 cylinder on the ground or suspended.

Two versions of Base Mini Stage-Co2 are available:

- STANDARD version, directly driven by the PowerCon supply.
- DMX version, integrating a DMX-512 control card with XLR 3 & 5 Pins.

Diffuseurs de Senteur UE K-350 FRAGRANCE

By Universal Effects

Selling price : 4 476,00 € ex.VAT

The **UE K-350 Fragrance** is a medium-volume scent diffusion machine. It is equipped with 1, 2 or 4 nozzles depending on the model chosen. Deposit-free and safe for the public and the environment, this fragrance diffuser allows you to change scents in seconds. Control your machine in DMX-512 or in Standard version by the PowerCon supply.

Made of ALUMINUM and stainless steel screws, this low decibel scent diffusion machine is designed to last over time. Its unique concept allows its user to keep the same propellant, called **BASE** and to change the effect thanks to interchangeable **HEADS**.

It is a professional quality product suitable for mainly indoor use, suspended or on the ground with its support (optional).

Flame Machine CIRCLE FLAMER X-F3600

By Showven

Selling price : 5 545,00 € ex.VAT

The **Circle Flamer X-F3600** is an 8-10 meter circular flame throwing machine suitable for indoor or outdoor use subject to weather conditions.

Its use is made by the DMX-512 signal and allows to control the rotating nozzle of 1080° over 3 cycles with a maximum of 182 preset shot sequences. With its 10L capacity tank and its waterproof stainless steel case, the Circle Flamer X-F3600 guarantees you a long duration of effect and use.

For better reliability, it is recommended to use the Host Controller by Showven control system provided specifically for this product.

However, you can control your machine with a DMX console or a pyrotechnic firing system.

PASSION FOR INNOVATION

Low Fog Machine CREEPER AQ

By Showven

Selling price : 1 972,00 € ex.VAT

The **CREEPER AQ** is an ultrasonic bass smoke generator that works with purified water and smoke fluid. More respectful of the environment, this machine has two tanks for a duration of effect up to 2 hours continuously.

Control your effect with the many available settings such as smoke density, humidity and fan speed. Control your machine in DMX-512 or with a wireless remote control, these multiple features allow you great versatility in the style of your effect, indoors or outdoors.

With your machine: **4 Cans of Low Fog included.**

Low Fog Machine CREEPER ICE

By Showven

Selling price : 2 993,00 € ex.VAT

The **CREEPER ICE** is a low fog generator based on dry ice, different from other dry ice machines available in the market, **CREEPER ICE** with DMX control, separate water and dry ice tank, operators can not only control the on/off easily at the control desk, but you can also adjust the output volume as needed.

CREEPER ICE can generate dense, rolling clouds of low fog with good ground adhesion in any location. Excellent choice for circumstances requiring a strong grip on the ground. More environmentally friendly.

With your machine: **4 Cans of Low Fog included.**
